SECTION

**Notice of Upcoming Seminar – April 13, 2006**

CALLING ALL:

- Foremen,
- Integrity Technologists,
- Field Operations and
- Maintenance Staff

The NACE Calgary and Saskatchewan sections are working together to deliver an integrity management seminar. It will be focused on reducing costs associated with **DOWNHOLE CORROSION** and is scheduled for **April 13, 2006 in Estevan, SK.**

This seminar will focus on daily operational challenges faced by producers. Presentations will be delivered by suppliers and producers and answer some of these common questions:

- **What factors influence downhole corrosion?**
- **What are the cost drivers?**
- **How can downhole corrosion-related problems be reduced?**

Watch for more details on the speakers, topics and date in upcoming NACE Newsletters.

Please pass on this notice to others who may be interested.
